Crowd Wonders at the Daring of Record-Breaker in Negotiating Corners New Figures All Along the Line at Empire City Track-No Accidents.

A mile in a minute was made to seem commonplace by the performances at the automobile races at the Empire City track yesterday. It was the fastest meet of any sort ever seen in this country, a record-breaking and record-making affair from start to finish. The crowd thrilled and shivered and gulped and gasped so vehemently that the thousands of indrawn breaths seemed to cut out a vacuum in which one grew dizzy, while the auto of Bar-ney Oldfield, the great record-breaker, with a great swish and a roar like that of distant cannonading, swooped along over the homestretch, skated broadwise through the turn, whirled along the backstretch, flung through the far turn again and whizzed across the tape making him the holder of the new record or the world of a mile in 55 4-5 seconds.

New records were made all along the line

o completely that the times made during the afternoon form of themselves almost a comete table of automobile records of every Out of five events new competition ecords were made in every race excepting one and that was the free-for-all, which came st on the programme.

A new set of figures from one mile to fif-en, inclusive, was made for the heavy type of towing car: new figures from one to five miles, inclusive, were made for light cars weighing under 1,200 pounds in one race, ed in another one that followed new records from six to ten miles, inclusive, were made.

The records from ten miles to fifteen have

stood since 1901, when they were established by A. C. Bostwick. In the five-mile match race between Oldfield and La Roche, miles ess than a minute were reeled off successively, and there was in all almost a surfeit f speed for the day. The excitement tired the spectators visibly, yet nearly all stayed in some of the races there was a close con-

test for a mile or two that kept the crowd on edge, but then it would string out as ome machine let out a notch and took a lead that made it a sure winner, barring accident. By actual count there were 303 auto-nobiles parked in front of, at the sides and inderneath the big grand stand. The stand its if contained between six and seven thousand persons, and hundreds more were scatred about the grounds.

The record breaking began with the first vent, the five-mile race for cars less than 200 pounds in weight, and a noteworthy hing about this race is that an Americanmade car of ten horse power beat a Frenchmade car of sixteen horse-power. It is further remarkable that the American car was one of a style that uses no water jacket to cool its cylinders, but is "air cooled," and yet on a hot day it ran five miles, with the un streaming on the engine, in 6 minutes 54 3-5 seconds. The Franklin car was a winer almost from the start of the first event. The mile trial of Barney Oldfield was put

next because Oldfield requested it. He i that he wanted to settle his record stand-here in the hast while the chairman of A. A. Ruce Committee was referee and officially recognized timers were on

all the officially recognized timers were on hand
Oldfield went for the record with a flying start. The big car got under full speed almost at once and as Oldfield, bareheaded and alone, sat in it and crossed the tape every one caught a breath and realized that he was moving at hitherto unseen speed. There was no time to think of much, to marvel at the daring of the man or to wonder why he kept to the outside of the track away from the pole before there came an exhibition of hairraising daring and nerve and skill that explained. Keeping near the outer fence oldfield suddenly seemed to be seized with terrible convulsions and then the car veered violently and shot into the turn, skimming like a huge projectile close to the rail.

As the front wheels turned, in response to the driver's sudden and tremendous work at the steering wheel which caused his strange contoutions, the rear wheels slid sideways for a distance of forty or fity feet, throwing up the dirt in a cloud that drove the spectators near the fence, hurrying away, pellmell. It was this that caused the whole great crowd to gulp and gasp with a sound that blended into one long moan. Faces of men used to all sorts of dare-devil sports blanched, and experienced hands holding watches shock as if with ague. The exhibition was Oldfield's method of making the turn, that was all. He ran wide and turned in suddenly, instead of trying to hug the pole as closely as possible. [3]

stead of trying to hug the pole as closely as possible. [a].
In the backstretch he did not turn up much dust, and as he flitted through there were a few moments in which to estimate his speed, to admire and marvel at it. When he finished the mile, and the time of 55 4-5 seconds was announced, there was a tremendous demonstration. The former record for the Hack, made by Oldfield on May 30, was I minute 12-5 seconds.

redit, and trium; hing over a second foreign-nade our, and adding five additional new records to its score. The three-sided race between the Mer-

The three-sided race between the Mercedes that is a sister car to the one Jenatzy drove to victory in Ireland, the Decanville that was in the Paris-Madrid race and the Peerless that Mocers drove in the Irish cup race was close for three-quarters of a mile. Then the Mercedes began to draw away from the Decanville, but slowly. The Peerless cup racer kept dropping back. At five miles Grosso, with the Mercedes, was leading by 200 vards and had made a new record of 5 minutes 28 2-5 seconds, beating Oldfield's record of 5 minutes 31 seconds, made May 30. At ten miles Grosso had a lead of a third of a mile, and after that the race was never in doubt. He won by five-eighths of a mile. In the match race between Oldfield and La Roche, the former had it all his own way. In the first heat they started from opposite sides of the track, getting away evenly after one false start. Oldfield had an unlighted cigar in his mouth when he first started. In the first turn a screw of his spark coil fastening jumped loose and he slowed and stopped. The officials called it no start. After they got away the second time, from a standst II, he began at once to eat up the distance that separated him from his competitor, and also to make new records from a standing start. Oldfield ded at the end of the first mile by two furlongs, at the second by four furlongs; he caught and passed La Roche in the fourth mile and won by just about a mile. In the second heat he won a greater victory.

your about a mile. In the second heat he won a greater victory.

He gained steadily and won by a mile and a quarter, after reeling off the second mile in 57 2-5 seconds, the third in 58 3-5 seconds, the fourth in 57 3-5 and the fifth in 58 4-5 seconds. His time for the five miles of 4 minutes and 55 seconds is a new competition record, but against time Oldfield's record for five miles with a flying start is 4 minutes 4 seconds, made on July 4 at Columbus.

In the free-for-all four machines started, and for a couple of miles it looked like a sure thing for Herman's Pinhard. This auto had a valve breik in the third mile, however, and then Sincholle took the lead. He led until in the sixth mile he tore a rear tire, and then Page went to the front and stayed there till the end, winning by more than a mile. Page drove his car to the end, going nine miles with his tire flapping about like a torn rag, and the crowd momentarily expecting to see him users.

NEWS OF THE WHEELMEN. Kramer and Hurley Both Beaten at Man-

hattan-Riders Hurt in Spill. An accident that at first seemed serious happened at the N. C. A. circuit meet at the Manhattan Beach track yesterday. It occurred in the five-mile open amateur race Twenty-eight riders started and in the seventh lap, when they were bunched, fifteen went sprawling. A few went over the embankment. Adolph Stober of Brooklyn received severe gashes under his eyes and on his forehead. Marcus T. Hurley of the New York A. C., the amateur champion, had his arms cut, and other riders were cut about the body. A prize, was offered for the rider crossing the tape first at the end of each lap. The greatest number of lap prizes went to

O. M. Dorlan. the ten-mile professional championship event teamed with McFarland, and the latter took the lead in the last lap, followed by Lawson, and kept up a tremendous pace. When about fifty yards from the finish he pulled out and allowed Lawson to go to the front. Lawson won by about a foot from Kramer. John Bedell of Lynbrook, L. l., was a close third. Besides prizes of a dollar offered to the leader of each lap, \$5 was given to the rider who crossed the tape first at each mile in this race. Menus Bedell took a five-dollar prize three times, and W. S. Fenn, G. C. Schreiber, Walter Bardgell, John King and

Schreiber, Walter Bardgell, John King and John Berdell each once.

The motor cycle race for amateurs at five miles was interesting. In the early part of the race J. R. Ready of Brookin got the lead, which he held until about the third mile Then S. D. Goodwin of Manhattan, who was far back, made a great spurt, and for more than two miles only a few feet separated them. Goodwin finally got the lead and in the last lap seemed to have the race. His cap blew off, however, and thereafter his motor seemed to lose its power, for Ready passed him and crossed the line first by a foot. H. Blake was second.

Hurley also was unfortunate in the one-mile amateur handicap, being unable to get a prize. W. L. Lee of this city, who had a good handicap, was first, with John Bailey and Edward Balley close up in second and third places.

Special Cable Despatch to THE SUN. LONDON, July 25.—The American rifle team which won the contest for the Palma Trophy left Bisley this morning. They were enthusiastically cheered by a crowd which had assemi led at the station. A band played "The Star-Spangled Banner," "Yankee Doodle" and "Auld Lang Syne" as the train pulled

out.

The team will sail for New York this evening on the Cunard live steamship Lucanta. The London evening papers all hear testimony to the wouderful popularity of the members of the team during their stay at Bisley. All of the population of the place that could conveniently do so turned out this morning to give them a parting cheer and say farewell.

HALF THE WOMEN OF THE UNITED STATES

Have Catarrh in Some Phase or Stage.

Catarrh of the Stomach Common in Summer. Pe-ru-na is a Specific for This Ailment.

Miss Marie Lindholm, 239 13th Street, finally decided to use Peruna and three chronic inflammation of the mucous lining bottles of it entirely oured me. I gladly recommend it to others who are afflicted as I have been. —Grace Allyn. from the use of Peruna for Indigestion and somach trouble, and I am pleased to give my experience. Three years ago my stomach began to treuble me, my food did not properly digest, and I would wake up two or three times in the night with terrible pains caused from indigestion. I saw a physician at once, and took what he advised, but the trouble only increased until my health was very much impaired. I grew pale and thin and thought there was no cure for me. Fortuna ely Peruna was brought to my notice, and the regular use of eight bottles made

me well. I therefore endorse it most heartly," Marie Lindholm. Miss Grace Allyn, 17 Cedar St., Hot Miss Grace Allyn, 17 Cedar St., Hot Springs, Ark., writes:

"For years I was troubled with indigestion and dyspepsia, which at times became so bad that I despaired of ever again enjoying a good dinner. Everything I ate or drank would sour on my stomach or cause me to vomit. I had tried everything in the patent medicine line and had given up doctors years before for they never did me any good. I

August Belmont Back in Polo.

Newport, July 25.—There was a practice game of polo this afternoon at the grounds of the Westchester Polo Club, but it was impossible to keep a score, for the players were constantly changing sites and positions. Among the participants was August Belmont, and he played a good game. This is the first time Mr. Belmont has appeared on the polo field at Newport in ten years. Others who were in the game were P. F. Collier, Alfred G. Vanderbilt, William E. Carter, Fred G. Havemeyer, Lawrence Waterbury, Reginald Brooks, George N. Norman, Arthur Burden and Peter D. Martin. Two periods were played. Mr. Havemeyer was thrown from his pony, but was not hurt.
